

Women in Social Enterprise Development

Newsletter

Training activity in Malta, March 2020

The training activity in Malta provided a safe environment for testing our training program and training materials developed in the project. The participants to the event were teachers and trainers from the vocational and adult education schools and centres as well as several entrepreneurs who helped us to evaluate the project outcomes and direct us towards their best usability among women in social enterprises.

WOMEN IN SOCIAL
ENTERPRISE DEVELOPMENT

WISED Training program

The training program reflects the real needs of the women that work in the social enterprises that participated in the survey.

A social enterprise is an organization that applies commercial strategies to maximize improvements in human and environmental well-being—this may include maximizing social impact alongside profits for external shareholders. Social enterprises can be structured as a for-profit or non-profit, and may take the form (depending in which country the entity exists and the legal forms available) of a co-operative, mutual organization, a disregarded entity, a social business, a benefit corporation, a community interest company or a charity organization. What differentiates social enterprises is that their social mission is as key to their success as any potential profit.

Seven modules have been ideated and developed to support women in their social and economic life.

1. **Communication in Social Enterprise**
2. **Social Enterprises Dimension**
3. **Social and Civic Competences**
4. **SE initiative and Entrepreneurship**
5. **Social awareness and Solidarity**
6. **Ethical Values and Sustainable Development**
7. **SE in a Media World**

**Training program will be available as an open source in February 2021
in English, Czech, Italian, Turkish and Spanish languages.**
