DECEMBER, 2022 (VOL. 2)

COVET project LTTA, Vigo

SHORT-TERM JOINT STAFF TRAINING

On the first day we met at CPR Daniel Castelao, the centre of our Spanish partner, CEBEM FP, SL, where we enjoyed a warm welcome, a tour of the school and a presentation of the workshops.

On 14, 15 and 16 June last year, a meeting of the COVET team took place in Vigo, Spain, where the development of the project was presented to a group of teaching staff, giving us the opportunity to share ideas and systems of work of each partner.

Our partners in charge of developing didactic units for teacher training, ProEduca (Czech Republic), Archivio della Memoria (Italy), Technological University of the Shannon (Ireland) and SBTC Danismanlik (Turkey), presented their work so far.

We had the pleasure of attending presentations from a wide variety of professional families: administration and management, electricity and electronics or art were some of them.

During the second and third days, the partners who were commissioned to deliver the demonstration sessions, CEBEM, FP, SL (Spain), ProEduca (Czech Republic) and Northern Regional College (Northern Ireland), presented their work and shared their best working practices with the whole team.

Besides all the work, there is always time for leisure. We toured the city of Vigo, learned about its history and visited its most important places. We also enjoyed the excellent gastronomy and the local nature. Days to remember!

THE CPD TRAINING MATERIALS AND THE SAMPLE LESSONS WILL BE AVAILABLE AS AN OPEN SOURCE IN APRIL 2023, IN 7 LANGUAGES!

STAY TUNED!
