TRANSNATIONAL
PROJECT MEETING IN
TURKEY.

On July 5th and 6th the project team has met at Mugla Sitki Kocman University in Turkey, for the Transnational Project Meeting Nr. 3.

PROJECT OUTCOMES:
FINALISED AND
READY TO BE
CONSULTED ON THE
PROJECT WEBSITE

All the main project outcomes are now available online, together with the online Toolkit and the Project Platform, in their English Version.

All the resources are open source, to be used by anyone interested, at any time.

At the moment, all the material and resources created are being translated into the other Project Languages, so that they will soon be ready for use in the seven partner countries by VET providers and educators.

Third Transnational Project Meeting **P.1**

Finalised Project Outcomes **P.2**

The Flipped VET Moodle Platform **P.2**

The FlippedVET implementation team has met for the Third Hybrid Project Meeting, in Turkey

During the Meeting, the latest Project implementation and activities were presented and discussed in an insightful presentation, packed with valuable information about the project's progress. The project team had the opportunity to explore and decide about the finalizing tasks and activities to ensure a successful completion by October.

All the Project results have been completed and available online on the Project's channels, and their translation is underway, set to be completed by the

An agenda was crafted during this third TPM for the last activities to be implemented by the 7 partners craft, with the objective to leave a lasting impact in the VET field.

Now that the project is coming to an end and we are ready to show all the results we have produced, it is time for the Dissemination Activities. These will comprise the publication on the project's social media of information on each one of the results created, with links to the project webpage for consulting and downloading.

The Project Outcomes are ready to be consulted and used by VET providers, soon also in all other Project's languages!

All the Flipped VET outcomes and Training Materials are now available on the project's platforms and website in PDF Format, in their English versions:

- **The Experts Opinions Report for the Flipped Work-Based Material.**
- **The Flipped Work-based Learning Curriculum: Digitalisation of the Work-Based Learning:** this Curriculum is a tool to enable work-based learning to be implemented in a digital environment. It provides informations on how to design flipped work-based learning.
- **the Flipped Work-based Learning Guide:** the guide has been prepared within the scope of the Digitalisation of Vocational Education and Training. It aims to provide a roadmap on how developments in information and communication technologies as well as various forms of online and blended learning and teaching can be applied to the design of traditional WBL processes. It is an informative source for organisations wishing to digitalise their WBL processes.
- **The Flipped VET Moodle Platform.**

Get ready for the National Multiplier Events! By October each partner organisation in the Project will organize their own much anticipated Multiplier Event. The aim of the partnership is to make this Events impactful and spread the project's impact far and wide!

Digitalising VET: The Flipped Work-Based Learning

The Training curriculum and Training materials are available as an open source in English, and soon also in the project's 7 languages!

Stay tuned!

We will be back soon, with more information and news about the finalization and latest events of the Project!

LEARN MORE ABOUT THE FLIPPED VET MOODLE PLATFORM!!!

All the FlippedVet Project's Results have been made available on an Online Open Source Moodle Platform.

Moodle is a very popular learning management system in both academic and corporate environments. It is a free, open-source system that anyone can freely use in their learning processes. Moodle is used for blended learning, distance education, flipped classroom and other online learning projects in schools, universities, workplaces and other sectors.

If you are interested in learning more about the Flipped VET Moodle Platform, and take a view to, or download the project's results in their English version, please click on the following link:
