The Promoting R-Valuation of second-hand use project Learning Activity

In November 2023, the RValue consortium got together for the second Transnational Partner Meeting in Spain. This was a key moment during our project as all outputs were finalised:

1. What is Green?: Investigation & Methodological eBook
2. Integrating Sustainable practices in School
3. "Practice Green" Toolkit

All resources will be available in our Green Open Educational Resources Platform soon!

AS NEXT STEPS, THE RVALUE CONSORTIUM WILL IMPLEMENT THE RESOURCES IN NATIONAL PILOTINGS WHERE STUDENTS WILL BE THE LEADERS DURING THE WHOLE PROCESS, TAKING ACTION ON GREEN PRACTICES IN SCHOOLS.

Following the consortium meeting, we had the **International Piloting Workshop in Spain** with 1-2 teacher representatives from Cyprus, Italy, Czech Republic, Turkey and Spain. Some of the **results of the Training Activity** were:

- Provide **tangible feedback** on the outputs to incorporate into the resources and make them as **high-quality** as possible.
- Get familiarised on how-to **incorporate green practices into the classroom**.
- Learn about **EU-level practices** as they interacted with other trainers.
- Leave the Training with clear possibilities on how to **replicate and incorporate the developed content into their classrooms**.

AS PART OF THE TRAINING, WE ALSO DEVELOPED DIGITAL STORIES TIPS AS EXTRA RESOURCES TO INCORPORATE INTO OUR GREEN OER PLATFORM. THESE WILL ADD TO THE REPOSITORY AND PROVIDE FIRST-PERSON ADVICE FROM OUR TRAINERS TO FUTURE “GREEN-THINKING” TRAINERS AND STUDENTS.
